About This Game

A famous scientist virologist is the protagonist. She is invited to take part in an expedition to the island, where many years ago the outbreak of an unknown virus disease wiped out its population.
A tribe used to live in the island, they believed in existence of an evil spirit turning people into bloodthirsty zombies. The spirit had been confined into a totem which was hidden in a secret temple to keep it under control and never let free. And so it was for many centuries until the island became a resort.
Once, a tourist lost his way in the forbidden lands and came across a road to the temple. He found the totem and casually broke it. The spirit was released and the deadly virus spread all over the island. But even being broken the totem possesses power to constrain the virus spreading outside the island. The totem's parts were hidden by tribal successors, and being found these parts could get survivors saved and zombies exterminated.
The expedition arrived to the destination point on "Perseus" - a huge floating platform. The team has to save the island and prevent the virus from further spreading.

15 HOG scenes
13 mini games
40 unique game locations
Unique setting of zombie-island
Thrilling plot and action story

 b4d347fde0

Minimum:

OS: Windows XP SP3 x64

Processor: 1500 MHz

Memory: 512 MB RAM

English,German,Korean,Russian

I've met the first local. It seems that he was infected by that very virus; his face was disfigured, and his body showed signs of decay. Just as in known accounts, he was very aggressive. If not for the chain attached to his leg, I wouldn't be standing here now. They call these creatures "zombies" in the movies.

I was able to get rid of this "zombie" thanks to gravity! All I need to do now is catch up to this cloud.

I LOVED this game! Although it could be a little bit touchy about where or how many times you selected an item, this small annoyance was a worth the price to pay for a truly enjoyable experience. Would love to find more games like this one. Unfortunate I didn't have much free time to play during the day and kept falling asleep at night, I believe the average player could finish this game in 5 play hours. With 10 symbol stones to find and a back story that explains
 how the island got cursed this game keeps a player entertained on several levels. Definitely glad I bought it.
